

## SKU: DWF-FIRERATED

## FIRE-RESISTANT KNEE WALL ACCESS DOOR

### GENERAL DESCRIPTION

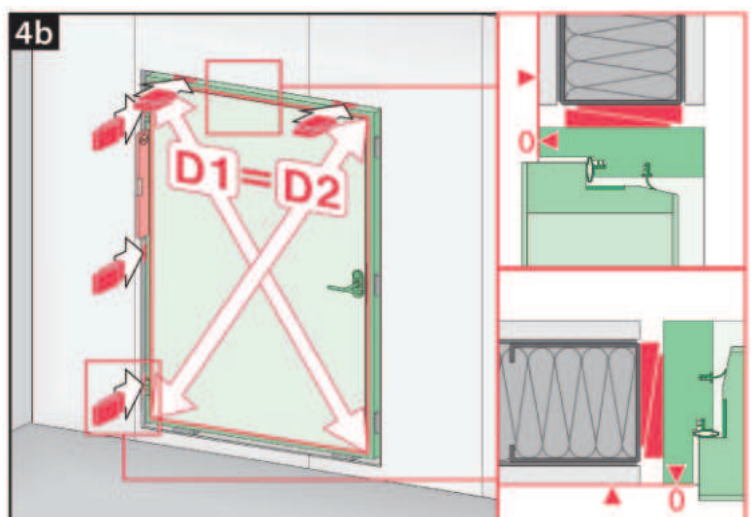

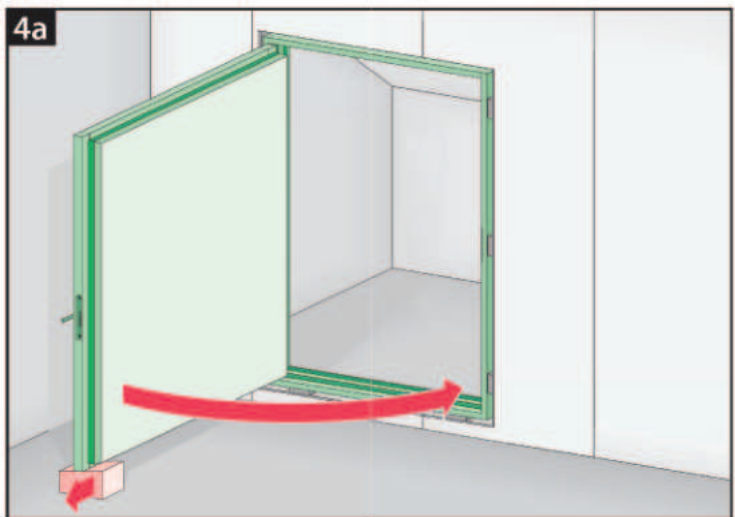

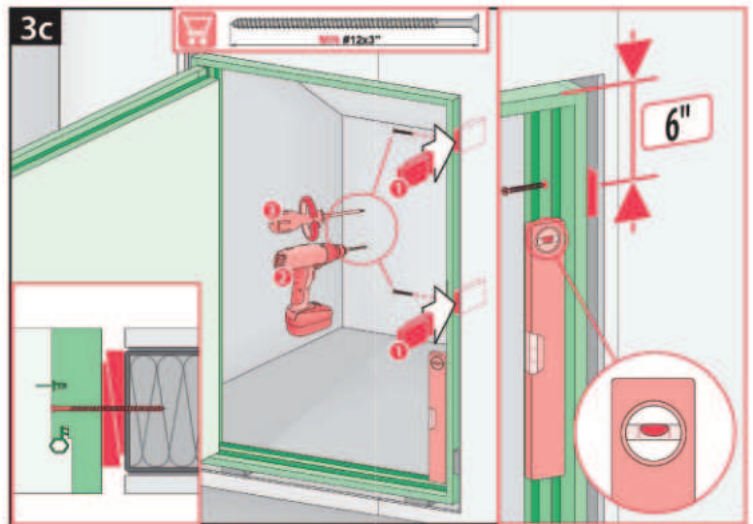

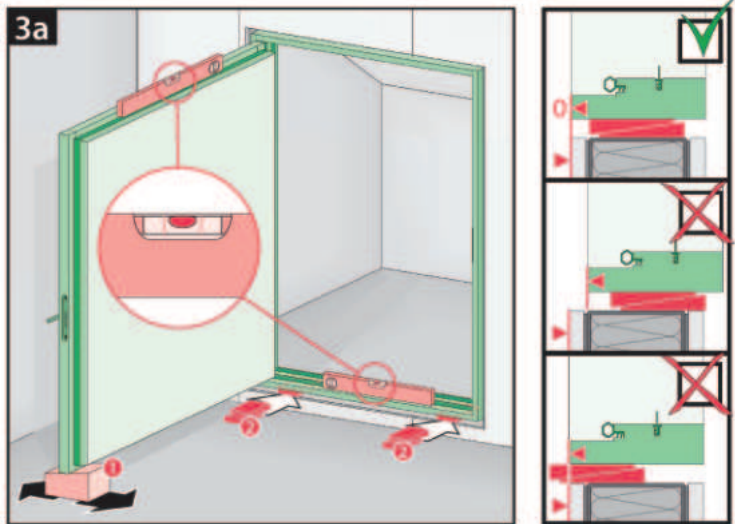

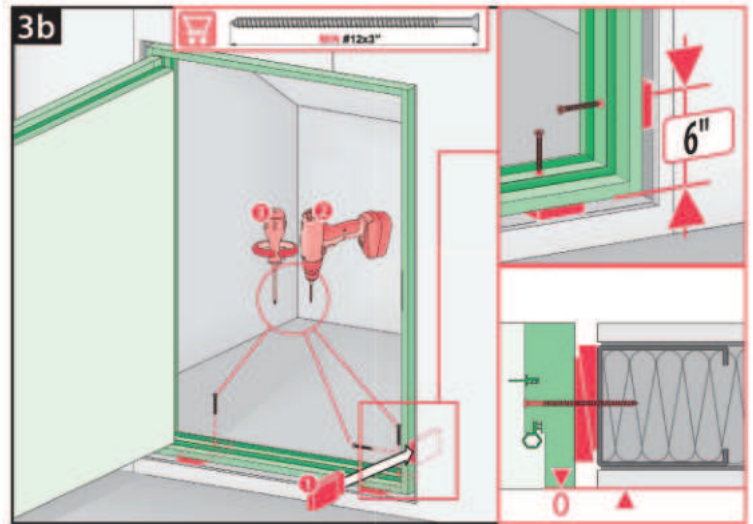

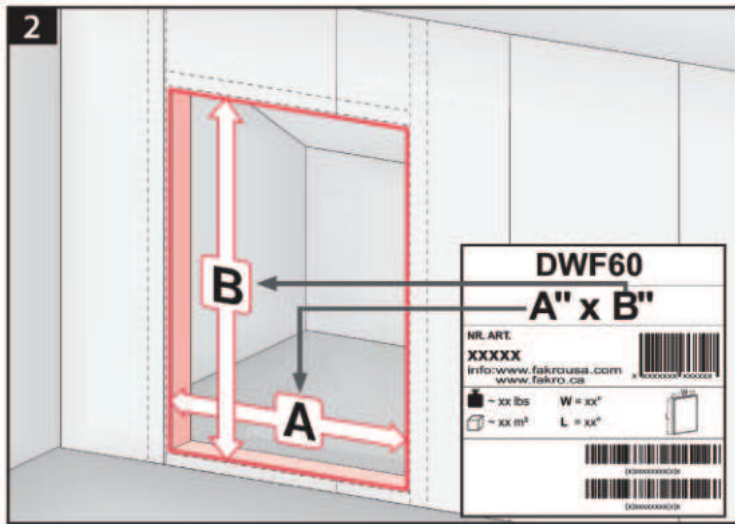

The FAKRO DWF fire-rated knee wall door provides safe access to non-livable spaces with EI1/EI2 60 fire resistance. It features a removable handle that can stay in the door or be removed after use. The door is equipped with three seals: a perimeter gasket, a compression seal for airtight closure, and an intumescent seal that expands during fire to block air and smoke. The construction includes a pinewood frame, mineral wool insulation (3 1/8"), and a white HDF panel, ensuring durability and energy efficiency. Fully assembled, it supports universal left or right swing installation.
