

APPLICATION

FHA and FHG floor access doors are for interior or exterior use where easy access is required. The angle frame construction with integral anchor flange is designed to be cast into concrete. They are available in either prime coated steel (FHG) or aluminum (FHA). Standard units withstand load bearing of 300 lbs. per square foot. They are designed for safety, durability and ease of operation.

SPECIFICATIONS

MATERIAL: FHG Series has a door made of 3/16" (5) thick A36 diamond plate. FHA Series has a door made of 3/16" (5) thick structural grade aluminum diamond plate. Both doors can support 300 lbs. per square foot live load. Frame material is composite hot rolled steel angle frame.

DOOR: Flush to frame. Equipped with an automatically locking hold open arm that locks the door in the open position. Also available are 1/4" (6 mm) thick doors reinforced to meet a 10,000 lb. load rating. (without impact for the FHA Series).

FRAME: Complete with a 1" (25) anchor flange. All hardware is Type #316 stainless steel.

HINGE: Tamper proof steel hinges with stainless steel pins

OPENING DEVICE: Automatic locking hold open arm with red vinyl grip allows door to open 90 degrees

HANDLE: Stainless steel recessed lift handle in the door

LATCH: The following lock options are available: padlock staple, Type # 316 stainless steel snap lock with removable handle, recessed hasp, Type # 316 stainless steel pentahead, keyed deadbolt lock or hasp and staple. The standard latch used is the compression lever latch.

FINISH: FHG Series is primed grey finish. FHA Series is an aluminum mill finish. Frame is finished with a bituminous coating.

PACKAGING: Individual pack

SKU: **FHA**

SUFFIX	OPTIONAL VARIATIONS
-BA	Buy American Act Compliant Product
-PA	Pennsylvania Steel Act Compliant Product

(Dimension) Denotes Millimetres
Note: The hinge is always furnished on the "A" or height (longer) dimension, unless otherwise specified.
Example: the model number would be FHG4872 for a floor access door with the hinge on the longer (72") dimension. The model number would be FHG2448 for a floor access door with the hinge on the shorter (48") dimension.

To Determine the Floor Opening for Doors with a Recess Frame (Suffix -RF), add 6" to the "B" x "A" (Door Opening) Dimensions in the Above Chart.
