DUCT ACCESS DOORS

Specification: The MIFAB UD Series of duct access doors are designed to provide access to equipment installed within ducts. The door panels are insulated and gaskets between the panel and frame will assure tight seals without obstruction in the air system.

Material: UD Series is 24 gage galvanized steel door and 24 gage galvanized steel frame.

Finish: Not painted. Shipped in natural galvanized steel finish.

Door: 1" (25) thick, double wall construction and insulated.

Frame: With bend over tabs to attach to the duct.

Hinge: Continuous piano type.

Latch: Standard – Cam latch is self-tightening and hand operated.

Packaging: Individual pack
